ABSTRACT

Flutter application for doctor appointments, highlighting its role in revolutionizing healthcare management. The application is designed to address the increasing demand for accessible healthcare services, offering a user-friendly interface for patients and healthcare providers. It emphasizes seamless appointment scheduling, reducing waiting times, and promoting timely access to medical professionals. The uniqueness of the application lies in its intentional daily quota of accepting only 20 applications, ensuring a focus on quality and personalized service. The login page, developed using the Flutter framework, is highlighted for its security measures and user-friendly interface, serving as an exclusive gateway to a world of healthcare convenience.

Our login page serves as the gateway to this exclusive platform, where users gain access to a world of healthcare convenience. Utilizing the Flutter framework, we have crafted a secure and user-friendly login interface that not only safeguards sensitive information but also provides a seamless entry point for users to navigate through their medical journey. This strategic limitation of 20 applications per day.
